

Mystere

MAX WEIGHT 28 stone, MAX SPEED 8 mph, RANGE 25 miles, VEHICLE CLASS 3

Metallic Red or Metallic Black

More comfort, more equipment, more style and incredible value. The Mystere is one of the best equipped, most comfortable and technically advanced scooters at a price that's very much within reach.

Stability and ride comfort are provided by the all-round suspension, while comfort is enhanced by the luxuriously contoured, fully adjustable and rotating seat. A state of the art digital touch button control panel provides all essential information including battery condition and speed setting, while lightweight fingertip controls on either side of the console make for total ease of use.

Other standard features include polished aluminium wheels, pneumatic tyres and anti-tip wheels at the rear for total safety. An adjustable tiller enables everyone to find the perfect driving position. Front and rear lights and indicators with hazard warning flashers in case of emergency ensure you can see and be seen at all times. Twin rear-view mirrors, removable on-off key, high level charge socket, front basket and rear seat pocket complete a specification which includes everything you are likely to need.

Mystere offers great value wherever and whenever you go, around town or in the country, it's strong and stable yet it's designed to be slender and nimble enough to negotiate through the tightest of spaces.

Reliable, stylish and easy to use, every journey, every day will be an absolute pleasure. The Mystere simply covers the ground with consummate ease and confidence.
